

2024 OSHA **FREE** Seminars

Safety, Health, and Environmental Services

Come learn – for free! – from professionals within Georgia's state OSHA Consultation Program who are well-experienced in assisting businesses with their safety and health concerns and questions. These short, free courses have lots of time for discussion with instructors and networking with other attendees on shared successes and challenges.

For \$25, you can get CEU credits for these courses and count them towards a GT Professional Education Certificate.

SAVANNAH IN-PERSON

▶ **OSHA 7005: Public Warehousing and Storage SAVANNAH**

Potential hazards in this rapidly growing and fast paced industry are numerous, and unfortunately, injuries to warehouse employees are on the rise. In fact, OSHA reported that the fatal injury rate for warehouse workers is greater than the national average. This course addresses public warehousing and storage operations, including encounters with powered industrial trucks, material handling, lifting and ergonomic challenges, chemical hazards, slips, trips, and falls, and life safety requirements including fire protection and evacuation.

Date: April 9, 2024 **Time:** 8:30-4:30

▶ **OSHA 7045: Fall Hazard Awareness for the Construction Industry SAVANNAH**

Falls can wreak havoc not only on employees of small construction firms but on the company as well. Our Fall Hazard Awareness for the Construction Industry course provides you with the know-how to spot potential dangers at your work site. Plus, you'll learn how to evaluate those hazardous conditions so that you can minimize or prevent accidents from occurring.

Date: April 10, 2024 **Time:** 9:00-3:00

▶ **OSHA 7510: Introduction to OSHA for Small Business Seminar SAVANNAH**

If you own or manage a small business, this Introduction to OSHA course will help you navigate the world of OSHA regulations to help keep your employees safe and your company in compliance. This seminar will cover how OSHA works and how it applies to your business, the inspection process, and how to create strong safety and health programs. There will be lots of time for questions as well as instruction on how to access free resources available to small employers.

Date: April 30, 2024 **Time:** 8:30-12:30

▶ **EST 7140: Hexavalent Chromium: Managing Exposure and Cleanup SAVANNAH**

This two-day course will provide you with the skills and capabilities needed to comply with the OSHA Hexavalent Chromium Standard and the resources necessary to develop a plan of action for cleanup of contaminated jobsites. You'll receive a comprehensive review of the OSHA regulation as well as training on the health effects of exposure to hexavalent chromium.

Date: July 24, 2024 **Time:** 8:00-4:00 each day

VIRTUAL VIA ZOOM

▶ **EST 8002: Special Topics in Occupational Health/Industrial Hygiene Seminar VIRTUAL**

A dynamic seminar that will provide timely information on new or changing OSHA health-related standards or industry best-practices. Topics can include chemical exposures, temperature extremes, infectious disease, personal protective equipment, fatigue, process safety management, or risk assessment. A must-attend for those responsible for managing health programs in the workplace.

Date: March 11, 2024 **Time:** 8:00-3:00

and **Date:** September 30, 2024 **Time:** 8:00-3:00

Pre-registration is required

▶ **OSHA 7100: Introduction to Machinery and Machine Safeguarding Seminar VIRTUAL**

Protect your workers and yourself by learning proper machine safeguarding techniques. You'll walk away understanding your legal responsibilities for safeguarding your employees, plus different methods you can use to do so.

Date: March 18, 2024 Time: 8:00-12:30
and **Date: August 12, 2024 Time: 8:00-12:30**

▶ **EST 8001: General Industry Safety and Health Seminar VIRTUAL**

You will receive an introduction to OSHA's general industry standards and an overview of the requirements for some of the key safety issues facing general industry, including the prevention of amputations and exposures to lead and silica.

Date: August 16, 2024 Time: 8:00-12:30
