

International wire payments to Georgia Tech just got easier!

The most efficient means for you to pay your student tuition and fees by international wire is by using Travelex's Bank to Bank Transfer. This option allows you to pay your student account balance in your currency of choice and provides a simple and secure way of initiating a payment electronically.

You have a lot to think about when attending a university abroad, including how to make payments for tuition and other university fees. Some of the complications you may encounter when paying by international wire transfers or bank drafts include:

- Payments are in a currency different from your local currency
- International wires are costly due to high banking fees
- Retail exchange rates are high
- Payment details provided by your banking institution to the university are sometimes incomplete which may extend the time it takes the university to apply the payment to your student account

Advantages of using Travelex's Bank to Bank Transfer include:

- You can easily make a bank to bank transfer by following the instructions under the [International Wire Payments](#) link on the GT Bursar's home page (www.bursar.gatech.edu).
- You make payment in the currency of your choice. This amount is then converted to U.S. dollars.
- There are NO transaction charges from Travelex or Georgia Tech, though you may be charged a transaction fee by your bank.
- The exchange rate quote is valid for 72 hours after the transaction is initiated.
- The exchange rate is competitive when compared to your financial institution's retail rates and bank service fees may be reduced since the transaction is initiated as a local transfer.
- Payments include your reference information to ensure your payment reaches your student account quickly, typically 2 to 5 business days after your bank initiates payment.
