

**Term Dates: January 6, 2025 to May 1, 2025**

**Course listings are subject to change through the first week of classes**

**Assessments and Proctoring:**

***Each professor individually determines due dates for assignments and exams as well as the exam proctoring method for each course. Some professors choose online proctoring as the proctoring method while others choose in-person proctoring. If your professor chooses in-person proctoring as the proctoring method for your exams, you will be required to find a proctor. If you enroll in a course that requires in-person proctoring, you will receive detailed information about the proctor nomination process during your first week of class. Courses with \* have chosen in-person proctoring.***
